## KAOBRITE

*Coating Solution for Paper Products*

### Product Description

KAOBRITE is a high-brightness, spray-dried hydrous kaolin characterized by its fine particle size distribution and exceptional brightness. Specially engineered for paper and paint applications, KAOBRITE boasts superior dispersion properties, enhancing both performance and consistency.

### Application Information

KAOBRITE is ideal for use as an opacifying filler and pre-coat in paper and board applications, significantly improving printability and surface smoothness. It is also highly recommended as an extender in water-based paints, providing excellent coverage and stability.
